Essen, Germany

## Faculty

## Introduction

Dear colleagues,

derived from the German proverb: (Der liebe Gott steckt im Detail), the English saying: The devil is in the details" reflects the view that something may seem simple at first sight but in fact will take more time and effort to complete than expected.

It is a great pleasure and honour for me to organize the symposium on February 5th, 2022. Planning such an event during the ongoing pandemic is really a challenge. The actual development of COVID-19 forced us to switch from a planned **hybrid meeting** to a mere **online** event.

I am pleased to invite you to this international meeting. As with at our previous symposia, colorectal experts from different parts of the world will share their experiences with us about the following topics:

- different anatomical terminology
- fissure treatment
- fecal incontinence
- ODS

I look forward to welcoming you to this virtual event!

Kind regards

Faramarz Pakravan, M.D.  
Düsseldorf
